

EXCEPTIONS FROM OPIOID TREATMENT REQUIREMENTS

63 OS 2-309I

Practitioners do not have to follow the requirements listed in 63 OS 2-309I if they are treating a patient:

Who has sickle cell disease

Who is in treatment for cancer or is receiving aftercare cancer treatment

Who is in treatment for substance abuse or opioid dependence

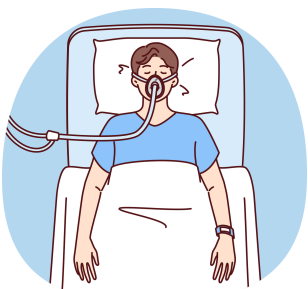

Who is receiving hospice care from a licensed hospice

Who is a resident of a long term care facility

Who is receiving palliative care in conjunction with a serious illness

All other opioid prescriptions are required to specify the type of opioid treatment (acute or chronic), enter into pain management agreements as applicable to this section, and are subject to 7-day pill limits. See the specified legislation for additional information.
